	Applicator head + application mandrel	Ø 10 mm
	Applicator head + application mandrel	Ø 12 mm
	Applicator head + application mandrel	Ø 14 mm

# ACL Drill canal filling

## Cancellous bone cylinder

### Advantages of allogenic bone material:

- No removal of bone from the iliac crest necessary – thus significantly lower surgical risk
- Shorter surgery times
- Less pain, good osteointegration, faster mobilization and lower risk of thrombosis
- Reproducible results
- No infections or rejection reactions observed to date Cancellous bone cylinder

### Cancellous bone cylinder

Item	Description	Size
9204I20	Cancellous bone cylinder	Ø 10 mm Height: 20 mm
9204I30	Cancellous bone cylinder	Ø 10 mm Height: 30 mm
9204I22	Cancellous bone cylinder	Ø 12 mm Height: 20 mm
9204I32	Cancellous bone cylinder	Ø 12 mm Height: 30 mm
9204I24	Cancellous bone cylinder	Ø 14 mm Height: 20 mm
9204I34	Cancellous bone cylinder	Ø 14 mm Height: 30 mm
